

## Version 8 Backup Guide

### Introduction

This guide will walk you through the steps necessary for creating a backup of recorded footage.

This will cover backing up to;

**CD / DVD with Nero 7 installed (standard on all ezVision systems)**

**CD / DVD without Nero 7 installed**

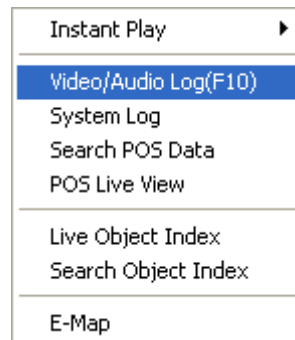

**USB removable drive**

### How to Backup an Event to CD / DVD with Nero 7 installed

Click on **Viewlog** Icon

Click on **Video / Audio Log**

Select the Event(s) you want to backup in the Viewlog, by clicking on the event, it will go blue. You can select multiple events by doing the following

Video Events	
<input checked="" type="checkbox"/>	13:25:12
<input checked="" type="checkbox"/>	13:30:12
<input checked="" type="checkbox"/>	13:35:13
<input checked="" type="checkbox"/>	13:40:13
<input checked="" type="checkbox"/>	13:45:13
<input checked="" type="checkbox"/>	13:50:14
<input checked="" type="checkbox"/>	13:55:14
<input checked="" type="checkbox"/>	14:00:03
<input checked="" type="checkbox"/>	14:05:03
<input checked="" type="checkbox"/>	14:10:03
<input checked="" type="checkbox"/>	14:15:03
<input checked="" type="checkbox"/>	14:20:04
<input checked="" type="checkbox"/>	14:22:07
<input type="checkbox"/>	
<input type="checkbox"/>	
<input type="checkbox"/>	

Click on **First event you want**

Hold down the **Shift Key**

Click on the **Last event you are interested in**

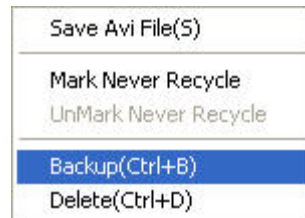

All the wanted events should be **highlighted blue**.

**OR**

Click on **multiple events**, whilst holding the **CTRL Key**

**Right Click** on the **Event(s)**
